

## PSA Films

### Films for Printing & Graphics Applications

Magnum Tapes & Films offers broad-ranging capabilities in pressure sensitive adhesive film manufacturing. Our tape and film products include both rubber- and acrylic-based adhesive systems with various thickness and physical properties tailored to your application.

Our state-of-the-art facility allows us to manufacture high-quality adhesive tape and film products, while affording us the flexibility to be responsive and nimble, with excellent product value, and outstanding service.

### Materials

Magnum offers a variety of adhesive backed film materials, including:

- Vinyl, polypropylene, paper, and various plastic films
- Optional top coats are available for various printing applications including inkjet, flexographic, digital/laser and UV printing

### Release Liners

Choose the release liner options that best suit your specific application:

- Several thicknesses and release factors available

### Thickness

We offer film products in various thicknesses to meet your needs:

- Premium 3.5 mil vinyl standard – custom thicknesses available
- We carry a variety of paper weights to meet your specific application

### Roll Sizes and Lengths

Magnum has the flexibility to offer a selection of stock products as well as custom and non-standard sizes:

- Roll lengths to 5,000 ft.
- Film widths from 1.5" to 60" (custom slitting available)
- Standard 3" core size

### Our Promise to Customer Service

We pride ourselves on unparalleled customer service—not just lip service. We offer genuine, customer-oriented solutions that beat the competition. Rely on the Magnum® promise: **Quality, Service, Delivery, Value.**
