

## Adhesive Tapes

### Tapes for a Broad Range of Applications

Magnum Tapes & Films offers broad-ranging capabilities in pressure sensitive adhesive tape manufacturing. Our tape and film products include both rubber- and acrylic-based adhesive systems with various thickness and physical properties tailored to your application.

Our state-of-the-art facility allows us to manufacture high-quality adhesive tape and film products, while affording us the flexibility to be responsive and nimble, with excellent product value, and outstanding service.

### Construction

**Most of Magnum's tape products are manufactured in one of these typical configurations:**

- Single-coated
- Double-coated (Including combinations of both adhesives and thicknesses!)
- Self-wound
- Free-film / transfer tape
- Pattern coated

### Release Liners

**Choose the release liner options that best suit your specific application:**

- Several thicknesses and release factors available
- Single liner or double liner construction available

### Roll Sizes and Lengths

**Magnum has the flexibility to offer a selection of stock products as well as custom and non-standard sizes:**

- Roll lengths to 5,000 ft.
- Tape widths from 1.5" to 60" (custom slitting available)
- Standard 3" core size

### Our Promise to Customer Service

We pride ourselves on unparalleled customer service—not just lip service. We offer genuine, customer-oriented solutions that beat the competition. Rely on the Magnum® promise: **Quality, Service, Delivery, Value.**
